

our school

- 1.** This classroom was built in 2013 with the money donated by Maria Ksenou, a local resident. It cost 30.000€.
- 2.** Our largest classroom. Apart from its size, it is a typical one. All our classrooms have overhead projectors, interactive whiteboards, are airy and sunny, clean and warm. Students sit one by one in the desks due to the pandemic measures.
- 3.** The main corridor leading to the Head teacher's office and the teachers' one further down, the classrooms and the toilets.
- 4.** The walls are covered with posters from projects, certificates and prizes the students of our school have won throughout the years.
- 5.** This our eTwinning board. We are proud to have our eTwinning school label there, along with our project posters.
- 6.** A large painting hangs on the corridor wall made up from small paintings representing a small part of the famous painting "the Starry Night" by Vincent Van Gogh. It was created last year by students as an Arts and Crafts project.
- 7.** Our Head Teacher swamped in paperwork.
- 8.** Our high school and the large yard where we play football, basketball and volleyball. The building at first was used by a primary school and a kindergarten, too. But this changed at 2011 where our school resulting from a merge of 2 neighboring schools of nearby villages, Chryso and Pentapolis ones. The school premises are surrounded by high fir trees. There's a canteen also built later than the whole school in 2013.
- 9.** The gazebo in our school yard overlooking the plain. This is where we sit to have a snack at break and rest after our gym classes as there's always a light breeze there.
